

Core Skills of Leadership

Successful leaders do more than manage well. They approach each situation as a leader and use influence and strategy to achieve results instead of relying on power and position. Advancing from manager to leader takes more than technical skills. This course helps participants learn the key skills of leadership and how to apply those skills in various situations.

Focus:

This course is for emerging leaders or people who have recently changed roles.

Length: 4 Hours

Performance Objectives:

- Describe and apply key leadership skills
- Use nine different techniques to influence others
- Describe the leadership process and identify specific action steps involved

Course modules include:

Foundations of Leadership	This module covers difference between leadership and power. Participants explore their leadership values and define which values are most important to them and their organization.
Core Skills of Leadership	Participants will learn the skills successful leaders rely on to produce results. These skills include building trust and confidence, communicating effectively, influencing techniques, and mastering change.
Leading with Purpose	This module incorporates the role of values, purpose and mission into the components of leadership.
